WHO WE ARE

A New Kind of ERP Partner

Our Mission

Empower SMEs and startups with enterprise-grade ERP — without the enterprise complexity.

What Sets Us Apart

- Deep Odoo specialization — implementation, customization & support
- Startup DNA — agile, fast, and obsessed with outcomes
- End-to-end ownership from discovery to go-live

THE CHALLENGE

Your Business Deserves Better

Most growing companies hit the same wall — disconnected tools, invisible data, and systems that slow them down.

Siloed Systems

Finance, ops, and sales running on separate tools — no single source of truth.

Data Chaos

Manual spreadsheets, duplicated records, and delayed reporting stall decisions.

Scalability Gaps

Legacy software breaks under growth pressure — you need infrastructure that scales.

Hidden Costs

Patching multiple subscriptions drains budget without delivering real integration.

THE SOLIDOO SOLUTION

Integrated. Efficient. Simple.

We deploy Odoo — the world's most flexible open-source ERP — tailored precisely to your business model.

→ One Platform

All departments connected, real-time data everywhere.

→ Custom-Fit

Configured around your workflows — not the other way around.

→ Always On

Cloud-hosted, secure, and accessible from anywhere.

CORE ERP MODULES

Everything You Need, **Nothing You Don't**

Accounting & Finance

Automated invoicing, real-time P&L, tax compliance, and cash flow visibility.

CRM & Sales

Full pipeline visibility, lead automation, and customer lifecycle management.

HR & Payroll

Streamline hiring, attendance, contracts, and payroll in one unified system.

Inventory & Supply Chain

Smart stock management, automated reordering, and multi-warehouse support.

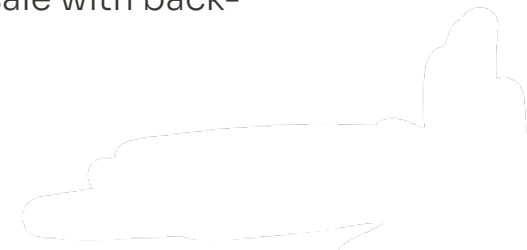

Project Management

Track deliverables, timelines, and team workloads across every engagement.

E-Commerce & POS

Sync your online store and point-of-sale with back-office operations instantly.

STARTUP ADVANTAGE

We Transform with you.

Start Small

Launch with only the modules you need today.

Grow Fast

Add capabilities as your team and revenue expand.

Stay Agile

Rapid iterations, zero downtime, full customization.

CLIENT SUCCESS

The Outcomes You Can Expect

40%

Efficiency Gains

Average reduction in manual operational tasks post-implementation.

3x

Faster Reporting

Real-time dashboards replace days-long monthly close cycles.

30%

Cost Savings

Consolidating tools into one platform dramatically reduces SaaS spend.

100%

Visibility

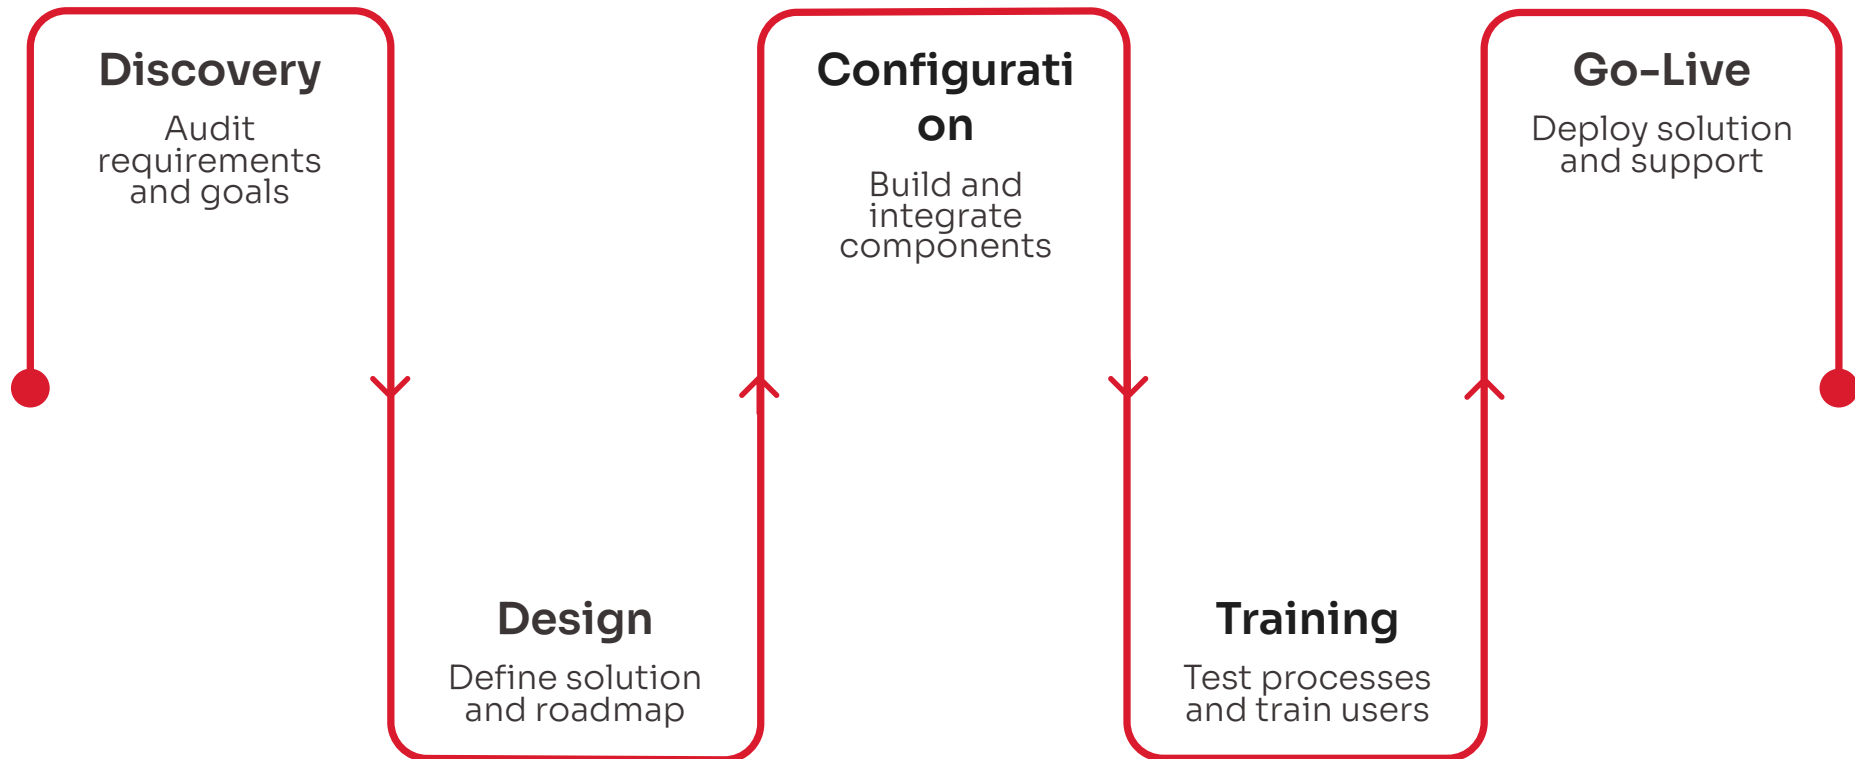

Every department, every metric, in one unified view.

"SOLIDOO didn't just implement software — they transformed how we run our entire operation."

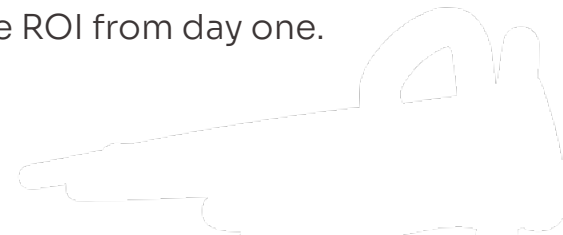

OUR METHODOLOGY

The SOLIDOO Implementation Flow

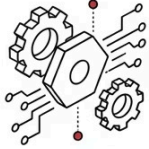

Our proven methodology ensures on-time delivery, zero business disruption, and measurable ROI from day one.

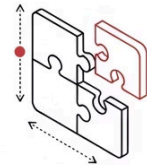

WHY SOLIDOO

Built for Builders

Deep Odoo Expertise

Certified implementation team with **deep system knowledge**.

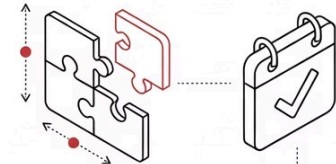

Startup Speed

Fast deployment timelines, **accelerated results**.

Ongoing Partnership

Dedicated post-launch **support** and **long-term commitment**.

Tailored Solutions

Custom **module** development for **unique** needs.

Our Commitment

We're not a generic IT firm. SOLIDOO was born to serve fast-moving businesses that need ERP done right — the first time.

Odoo-certified team · Cloud-native deployments · 24/7 post-launch support

Whether you're pre-revenue or scaling past Series A, our solutions fit where you are — and where you're going.

Ready to Transform?

Let's build the ERP backbone your business deserves — fast, clean, and built to scale.
